

Makil

Design by Patrick Norguet

Makil is a stackable chair made of solid wood, based on the traditional café chair. Despite its simple appearance, Makil is the result of the skilled application of bentwood technique. The wood is bent with steam and then left to dry for a long period of time. Members of the Alki team then prepare and assemble it.

DIMENSIONS:

CATEGORY:

Armchair

ENVIRONMENT:

Indoor

APPLICATIONS:

- CHR
- Public

WEIGHT: 7,6 kg
